

### Robotic Process Automation (RPA) Bring your virtual workforce to life!

Automation (RPA) technology is gaining widespread popularity helping businesses to reach their full potential

by reimagining operations with minimal investments. 2022 is set as the year when business begins experiencing the actual benefits of RPA and intelligent automation.

"Global RPA software revenue is projected to surpass \$2 billion in 2022 and will hit \$13.74 billion by 2028."1

Business benefits of implementing RPA

satisfaction

### Required breaks and vacations, can get sick

Human

Human Vs. Intelligent Automation

- Can't multitask efficiently
- Sometimes make error
- Crucial data can be misused
- Has to be paid

**Intelligent Automation** 

- Works 24/7/365 without rest
- Can perform different unrelated tasks
  - by 80-90%

Accuracy 99%, Time saved

Saves costs

Data is secure with RPA

Healthcare (10%)

- (UiPath Survey)<sup>3</sup>

"68% of global workers believe automation will make them more productive."

**Current RPA Adoption Statistics** 

- Due to Covid-19 and the shift to remote work, 76% of organizations have embraced automation and will endure the shift to automation even post-covid.<sup>4</sup>
- As of June 2021, 20% of all organizations have adopted RPA 2021, rising from the 13% adoption rate in 2020.<sup>5</sup>
- adopt RPA in the next two years.<sup>6</sup>

Technology (31%)

• 53% of respondents have already started their RPA journey and a further 19% of respondents plan to

### Manufacturing(35%)

Major Industries adopting RPA

## 92% of respondents say that RPA met or exceeded their expectations.

- organizational change in response to emerging business trends.8
- What do RPA Developers think?

• Three out of four RPA developers believe they'll be in RPA automation for at least the next five

More than 90% of C-level executives say their organization performs above average in managing

# • While in 2020, 51% said they were "very satisfied", this year the figure went up to 65%.

years. (19% are uncertain)
